Others: Frontend Development, UI Development, Frontend Web Development, Web Application Development, Angular Development, Angular Developer

PROFESSIONAL EXPERIENCE (2+ YEARS)

Front End Developer | Intersoft KK | Kolkata | Aug 2025 - Present

- Rapidly upskilled in **Angular** and **Next.js**, shortening ramp-up time by 15% to contribute early to delivery.
- Implemented **reusable UI components** aligned to evolving specifications, elevating usability and consistency.
- Collaborated with **cross-functional stakeholders** to clarify scope and sequence, increasing sprint throughput by 10%.
- Enhanced **frontend functionality** through iterative improvements and feedback loops to refine user journeys.
- Championed a reusable UI library adoption that boosted onboarding time by **25%**, accelerating new feature delivery and time-to-value for clients.

Technologies Used: Angular, Next.js, JavaScript

Frontend Developer | Elrising Technology Services Pvt. Ltd. | Kolkata | Apr 2023 - Aug 2025

- Partnered with product, design, and QA to align requirements and enforce **quality standards**, reducing rework by 10%.
- Owned **end-to-end delivery** of frontend modules, meeting milestones and timelines with an on-time delivery rate of 100%.
- Monitored progress and applied **corrective actions** to keep scope, schedule, and quality on track across sprints.
- Implemented **best coding practices**, reusable components, and reviews to improve maintainability and consistency.
- Ensured **responsive, accessible UI** and cross-browser compatibility, enhancing overall user experience.
- Implemented client side caching and code splitting to support peak traffic, sustaining **99.95%** UI uptime during a 2x user spike.

Technologies Used: React.js, Redux, JavaScript, Tailwind CSS, Material UI, Bootstrap

PROJECTS

PMO (Project Management Office) | Intersoftkk

Modern Project Management Office built with Next.js and TanStack for streamlined project tracking and team collaboration. Duration: 3 months.

- Architected role-based pages and access control, ensuring secure and tailored experiences for each user type.

- Built a modern, scalable dashboard using Next.js and TanStack Query, improving data fetching performance and UI responsiveness.

School Management System | Intersoftkk

Comprehensive school management platform built with Angular, covering end-to-end administrative and academic operations. Duration: 2 months.

- Developed role-specific dashboards for admins, teachers, students, and parents, improving accessibility and usability.
- Streamlined student enrollment and registration flows, reducing administrative overhead significantly.
- Implemented a timetable management module, enabling more efficient class scheduling and resource allocation.
- Integrated a secure payment processing system, facilitating seamless fee transactions within the platform.
- Built a communication layer connecting teachers, students, and parents, fostering a more connected school community.
- Added attendance tracking functionality, giving administrators and teachers real-time visibility into student presence.

DNA Live | Elrising Technology Services Pvt. Ltd.

Doctor booking application with an Admin portal supporting Normal Users and Clinics for streamlined scheduling and oversight. Duration: 6 months.

- Built an **Admin panel** to manage booking histories and user data, reducing manual operations by 90%.
- Designed **role-specific flows** for users and clinics, elevating booking completion rates by 30%.

OngBong | Elrising Technology Services Pvt. Ltd.

Product showcasing web application with intuitive navigation built using React and Tailwind CSS. Duration: 1 month.

- Integrated **Redux state management**, enhancing performance and streamlining interactions by approximately 30%.
- Delivered a **responsive UI** that boosted engagement and retention by 10% across devices.

OngMali | Elrising Technology Services Pvt. Ltd.

Admin panel for political party management with tools for user control, content review, and analytics using React, MUI, and Redux; Node.js/Express for secure access. Duration: 2 months.

- Implemented **role-based access** and secure authentication, reducing administrative overhead by 15%.
- Centralized **content and data operations**, accelerating decision-making for party activities by 10%.

EDUCATION

MS/M.Sc (Science) - Computers | June 2024

Vidyasagar University | Panskura

Bachelor of Science (B.Sc) - Computer Science and Technology | July 2022

Panskura Banamali College | Panskura

ACADEMIC HIGHLIGHTS

- MS/M.Sc (Science) - Computers (Vidyasagar University): Grade 7.9/10
- B.Sc - Computer Science and Technology (Panskura Banamali College): Grade 8.6/10

EXPERIENCE SUMMARY

- Total professional experience: 2 Years 9 Months
